FOR IMMEDIATE RELEASE

BlackHawk's Dynamic Entry Announces The Brake-N-Rake Tactical Entry Tool

NORFOLK, VA (September 23, 2005) – Dynamic Entry, a BlackHawk Products Group manufacturer of premier manual tactical entry tools preferred by professionals the world over, has announced the addition of the Brake-N-Rake to their line up of tactical entry tools. The Brake-N-Rake is a 51" long tool ideally used for securing secondary breach locations or creating tactical distractions during a primary tactical entry. Specifically engineered for window entry, the Brake-N-Rake 13" head features a carbon steel laser cut hook for removing curtain rods or other obstructions and pulling them out of harm's way, three oversized (4") glass raking fins designed to clear away glass and debris left on the window frame and a serrated blade. The Brake-N-Rake head is securely attached to a 1 ¼" electrically non-conductive D-Handle system for maximum pulling power and is designed for years of abuse. The Brake-N-Rake weighs just 9 ½ lbs. and has an MRSP of \$249.95. To see the Brake-N-Rake in action on the BlackHawk website, log on to <http://www.blackhawkvideo.com/de.html>.

"The Brake-N-Rake is a secondary tactical entry tool developed and engineered based upon the demand and requirements from SWAT and military teams," Marty Wozniak, brand manager for Dynamic Entry commented. "Whether creating a distraction for primary entry, or to gain entry through windows, the Brake-N-Rake was built with a rugged carbon steel head to clear glass, curtains, and any obstructions that could harm the officer or hinder a tactical entry."

About BlackHawk:

BlackHawk, founded in 1993 by President and CEO Mike Noell, is recognized as the world leader in supplying tactical equipment to the military and law enforcement markets. Mike was trained as a US Navy SEAL and incorporated that experience and discipline in building a company dedicated to designing equipment for the preservation of life under the worst extremes.

BlackHawk Products Group was formed in 2003 to accelerate the pace of introducing new best-in-class products to the performance oriented tactical market through intensive internal R&D initiatives and selective acquisitions. BPG™ acquired MOD™ tactical knives in December of 2003. Delta Design Group was acquired in January of 2004 to strengthen and direct the BPG R&D effort resulting in the launch of the CQC™ holster line also in January 2004. Jungst Scientific, acquired in March of 2004, further expands on these capabilities. In May of 2004, BPG acquired the Polar hydration technology and the all-new HydraStorm® line was launched in January of 2005. October of 2004 saw the launch of the new technology in illumination tools called the Gladius™ from BPG's new company Night-Ops™. The SERPA™ technology was expanded in January 2005 to include a new line of Tactical SERPA holsters. May of 2005 saw BPG acquire both Dynamic Entry® and All Season's Apparel. Wildfire Warrior, the manufacturer of Wildland fire fighting tools for Hot Shot crews and Smokejumpers in our nation's wilderness and park systems, was acquired in July of 2005. BlackHawk Products Group will make future announcements about other recent acquisitions and strategic alliances to coincide with their formal product launches.

BlackHawk is headquartered in Norfolk, Virginia U.S.A. For more information on BlackHawk and BlackHawk products, log on to www.blackhawk.com or call 800-694-5263.
