FOR IMMEDIATE RELEASE

## **BLACKHAWK™ DYNAMIC ENTRY® NEW TOOLS FOR BREACHING TEAMS**

NORFOLK, VA (September 29, 2006) BlackHawk™ Dynamic Entry® opens new doors in tactical entry with the introduction of the revolutionary Mobile Home Door Breacher and the Breaching Sledge. The Mobile Home Door Breacher is the answer to a breacher's worst nightmare – the outward opening door. After countless hours developing a solution to the potential hazards that outward opening doors present, Dynamic Entry created the Mobile Home Door Breacher to allow for safe, quick and effective entry during tactical operations. Because of a unique leverage orientation, the Mobile Home Door Breacher pulls the locking mechanism free of the doorjamb while simultaneously opening the door. The Mobile Home Door Breacher features an electrically non-conductive D-handle system and a laser-cut carbon steel breaching head, all designed to Dynamic Entry's legendary standards of excellence to withstand years of abuse. The Mobile Home Door Breacher is 29" long and weighs 5.2 lbs. and has a suggested retail price of \$199.99.

The Dynamic Entry Breaching Sledge brings together the best of both striking and prying tools; featuring the strike face of a sledge hammer and the prying wedge of a Hallagan tool. The compact and lightweight Breaching Sledge utilizes the most advanced metallurgical technologies on the market today. The head of the Breaching Sledge is composed of Micro-Metals that allow metal-on-metal use with reduced spalling. The Breaching Sledge Sure-Grip handle is electrically non-conductive and reduces the possibility of the tool slipping out of the operator's hands during extreme breaching operations. The Breaching Sledge is 22" long and a 32" Super Breaching Sledge is also available. Manufacturer's suggested retail price for the Breaching Sledge or the Super Breaching Sledge is \$129.99.
