FOR IMMEDIATE RELEASE

BLACKHAWK™ NIGHT OPS® EXPANDS LIGHT LINE UP

NORFOLK, VA (January 11, 2007) BlackHawk™ Night Ops® Division expands its illumination tool line with the Legacy, Professional, and Warrior series. Manufactured from aircraft grade aluminum with a durable Type II or Type III Anodized finish, the new tools are designed for specific applications for military or law enforcement as well as multi-purpose lights for day-to-day carry and outdoor use.

“The Gladius® put BlackHawk Night Ops on the map,” Mike Noell, President and CEO of BlackHawk explained. “It has been our intent from the beginning to design, manufacture and market an entire line of illumination tools for the soldier, police officer and the outdoorsman. With the introduction of the Legacy, Professional and Warrior classes of lights, I believe Night Ops will dominate the illumination tool market.”

The Legacy class of light tools is highly functional, straight forward illumination tools with high output, non-digitally regulated white light from Xenon incandescent lamp assemblies. The Legacy line features polycarbonate or glass lenses in a corrosion resistant Type II anodized aluminum body. The Legacy X6 is a 6 volt tactical light with tail cap switch activation for Momentary and Constant On modes. The Xenon lamp produces 65 lumens of intense white light output. The Legacy X6 also features an anti-roll body. (Specifications attached). The Legacy X9 provides maximum light output in a 9 volt light with 120 lumens. The Legacy™ X9 features the anti-roll system and is weapons mountable. (Specifications attached) The Legacy X12 offers some “serious lighting power” with 220 lumens capable of illuminating objects up to 75 to 100 meters away. Portable and anti-roll, the Legacy X12 is also weapons mountable. (Specifications attached)

The Professional class of light tools features glass lenses in an aircraft grade aluminum body in a durable Type II or Type III anodized finish. The Duo™ PXL-6 is a versatile lighting system that provides 2 types of light output. First mode is a low light output (9 lumens) made possible through the integration of 3 low power LED's into the bezel design. The second mode of light features a high output Xenon bulb with 65 lumens of light output. (Specifications attached)

-more-

The Professional Sentinel™ PL1 produces a more than impressive 35 lumens in an unbelievably compact size. The entire light fits in the palm of your hand but is bright enough to illuminate objects up to 40 meters. At 2 oz. with a pocketclip design, the PL1's digitally controlled light allows for extended maximum brightness on 1 CR123A lithium battery. (Specifications attached) The Sentinel™ PL1-AA utilizes AA alkaline or rechargeable batteries and produces the same lumens as the PL1 model. (Specifications attached)

The Ally™ PL-3X is a multipurpose, digitally controlled lighting tool with pocketclip. Great for general purpose lighting, this 2-power compact lighting tool provides 50 lumens of light on HI and 12 lumens of light on LOW power. (Specifications attached) The Ally™ PL-3 has the same dimensions of the 3X but can be used as either a high light output tactical light or multipurpose light. (Specifications attached)

The Conquest™ PL-3 (Green LED) is the first lighting tool designed specifically for hunters. The Conquest PL-3 projects a green 3-watt LED light that allows the hunter or outdoor user to observe the surroundings while not disturbing the wildlife in diminished light conditions. Also an ideal self defense lighting tool, the Conquest PL-3's intense green light is difficult to look into at night, thus affording the user the opportunity to escape the situation. The Conquest PL-3 (Red LED) is also available for observing wildlife in its natural surroundings without the animals identifying the source of the light. Both the Conquest PL-3 Red and Green LED's allow for observation of an animal up to 70 meters away. (Specifications attached)

The Warrior Class features the very successful Gladius®, highly functionable, flexible, weapons mountable illumination tool with a unique high-output Strobe function and the Falcata™ 6V and 9V incandescent lights with a patented Xenon bulb system specifically designed for shock isolation against recoil and drops.

About BlackHawk™ :

BlackHawk Products Group™, headquartered in Norfolk, Virginia, with manufacturing, tooling and design facilities worldwide, was founded in 1993 by President and CEO Mike Noell. As the world leader in supplying tactical equipment to the military and law enforcement, and now hunting-specific gear to outdoor enthusiasts, BlackHawk continues to introduce new best-in-class products through intensive internal R&D initiatives and selective acquisitions. BlackHawk's brands include: BlackHawk Armor™, BlackHawk! Blades™, BlackHawk! Law Enforcement™, BlackHawk Tactical and Hydration, M.O.D.®, CQC®, SERPA™, Night-Ops®, Dynamic Entry®, Warrior Wear™, and Wildfire Warrior®.

Night Ops Specifications

Legacy Series -

Legacy X6

- Weight – 4.23 oz. / 120 grams
- Length – 5.12" / 130 mm
- Output – 65 lumens
- Max. Diameter – 1.34" / 34 mm
- Battery Type – CR123A x 2
- Run Time – 1 hour
- Bulb Type – Xenon 6-volt
- Clickable tail cap – Constant On and Momentary
- SKU – 75FL001BK
- MSRP - \$89.99

Legacy X9

- Weight – 5.11 oz. / 145 grams
- Length – 7.09" / 180 mm
- Output – 120 lumens
- Max. Diameter – 1.38" / 35 mm
- Battery Type – CR123A x 3
- Run Time – 1 hour
- Bulb Type – Xenon 9-volt
- Clickable tail cap – Constant On and Momentary
- SKU – 75FL002BK
- MSRP - \$189.99

Legacy X12

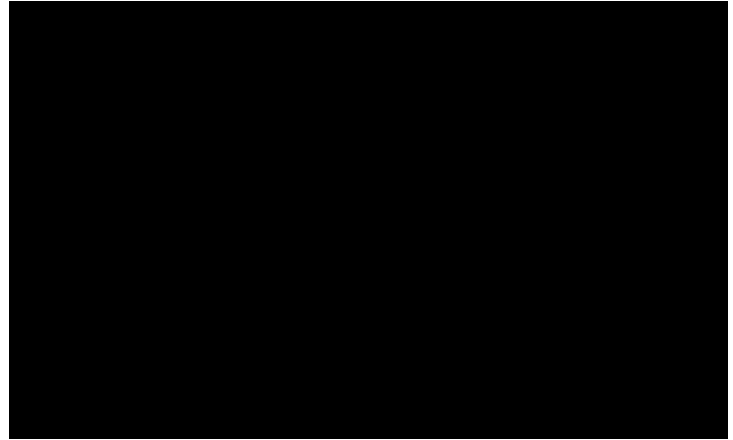

- Weight – 5.82 oz. / 165 grams
- Length – 8.47" / 215 mm
- Output – 220 lumens
- Max. Diameter – 1.38" / 35 mm
- Battery Type – CR123A x 4
- Run Time – 1 hour
- Bulb Type – Xenon 12-volt
- Clickable tail cap – Constant On and Momentary
- SKU – 75FL003BK
- MSRP - \$239.99

Professional Series –

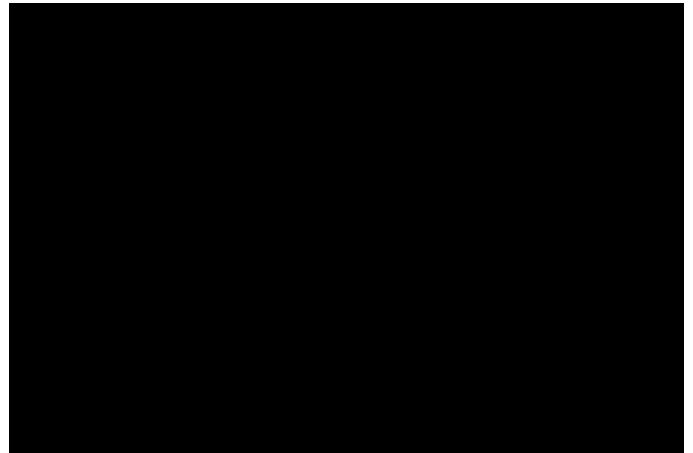

Duo™ PXL-6

- Weight – 4.23 oz. / 120 grams
- Length – 5.12" / 130 mm
- Output – Xenon - 65 lumens / LED's – 9 lumens
- Max. Diameter – 1.34" / 34 mm
- Battery Type – CR123A x 2
- Run Time – Xenon - 1 hour / 3 LED's – 50 hours
- Bulb Type – Xenon 6-volt / 3 – 1-watt LED's
- Clickable tail cap – Constant On and Momentary
- SKU – 75FL007BK
- MSRP - \$159.99

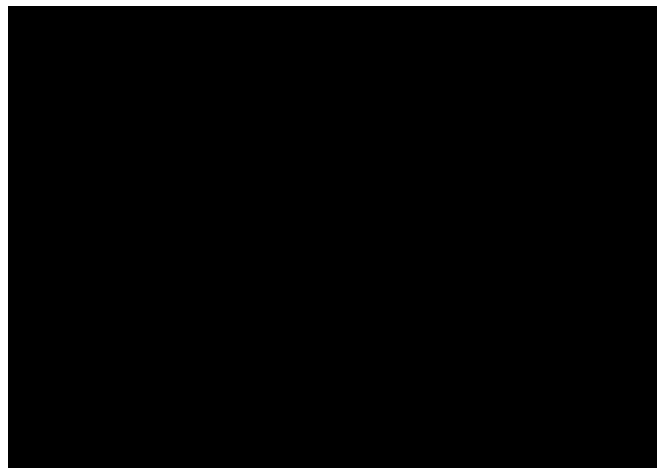

Sentinel™ PL1

- Weight – 1.94 oz. / 55 grams
- Length – 3.66" / 93 mm
- Output – 35 lumens
- Max. Diameter – 1.10" / 28 mm
- Battery Type – CR123A x 1
- Run Time – 3 hours
- Bulb Type – 1-watt LED
- Clickable tail cap – Constant On and Momentary
- SKU – 75FL0012BK
- MSRP - \$99.99

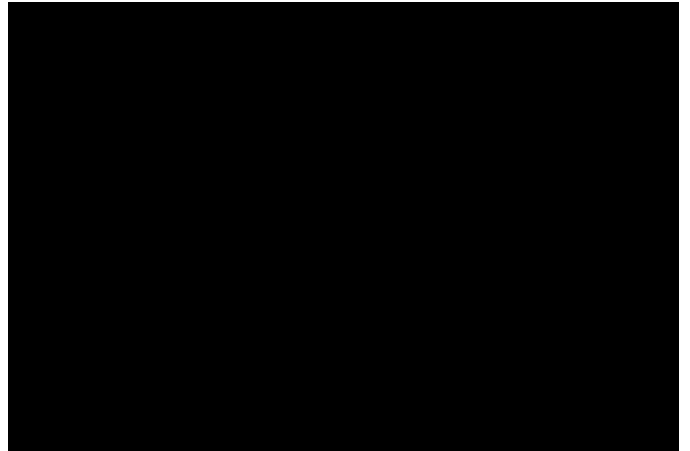

Sentinel PL1-AA

- Weight – 3.88 oz. / 110 grams
- Length – 6.30" / 160 mm
- Output – 35 lumens
- Max. Diameter – 1.10" / 28 mm
- Battery Type – AA Alkaline x 2
- Run Time – 3 hours
- Bulb Type – 1-watt LED
- Clickable tail cap – Constant On and Momentary
- SKU – 75FL0013BK
- MSRP - \$139.99

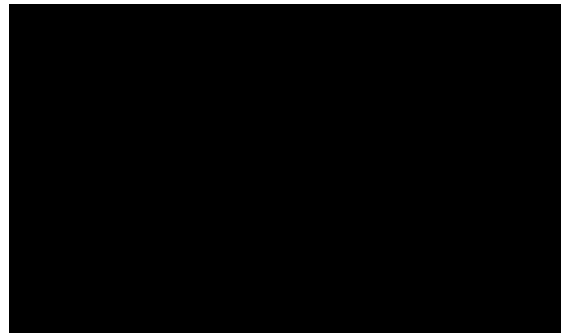

Ally™ PL-3X

- Weight – 2.46 oz. / 70 grams
- Length – 5.04" / 128 mm
- Output – 50 lumens – HI / 12 Lumens - LOW
- Max. Diameter – 1.10" / 28 mm
- Battery Type – CR123A x 2
- Run Time – 4 hours – HI / 20 hours – LOW
- Bulb Type – 3-watt LED
- Pocket clip
- SKU 75FL014BK
- MSRP - \$169.99

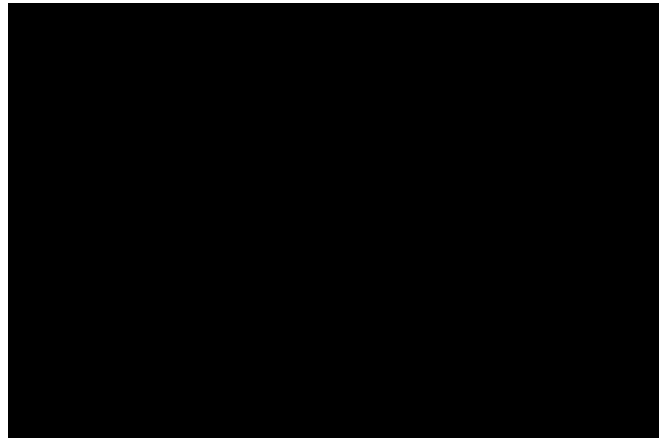

Ally PL-3

- Weight – 2.46 oz. / 70 grams
- Output – 65 lumens
- Max. Diameter – 1.10" / 28 mm
- Battery Type – CR123A x 2
- Run Time – 4 hours
- Bulb Type – 3-watt LED
- Clickable tail cap – Constant On and Momentary
- SKU – 75FL0015BK
- MSRP - \$164.99

Conquest PL-3 (Green LED) and (Red LED)

- Weight – 4.23 oz. / 120 grams
- Length – 5.12" / 130 mm
- Output – 85 lumens
- Max. Diameter – 1.34" / 34 mm
- Battery Type – CR123A x 2
- Run Time – 4 hours
- Lamp Type – 3-watt Green LED or 3-watt Red LED
- Clickable tail cap – Constant On and Momentary
- SKU – 75FL016 BK (Green LED)
- SKU – 75FL017BK (Red LED)
- MSRP - \$199.99
